## 2016 International Spring Meeting

ROME, March 11-12

## Dear friends and colleagues,

---

*it is a great pleasure to welcome you to the **Spring International Meeting**, the event planned by the Italian Society of Orthodontics on 11/12 March 2016 at the Auditorium della Conciliazione in Rome.*

*Teamwork for Esthetics and Patients' Quality of Life* focuses on the interaction among the different dental fields and maxillofacial and aesthetic surgery: the aesthetic and functional correction of severe malocclusions in growing and adult patients often benefit when other dental and medical specialists are involved in treatment planning with the orthodontist and the surgeon. The new 2D and 3D diagnostic tools are particularly valuable in diagnosing, planning and treating complex cases.

*This event has been built with the extraordinary contribution of all the speakers from the different specialties, to create a cohesive, practical, highly educational and integrated programme, complemented by interactive participation of the public. The speakers, of high clinical and scientific relevance, have welcomed the challenge with enthusiasm, and I'm sure they will offer two days of great educational significance.*

*In keeping with the structure introduced in 2015, the Spring International Meeting takes place on Friday and Saturday morning.*

*Saturday afternoon features a post-conference course (an advanced in-depth course on the theme of the meeting) and two additional sessions, aimed primarily at young people, with an introductory course on typodont and, again, on the Talent Factory, which was a highly successful event in 2014. The social event takes you to the National Gallery of Modern Art: a guided tour of the "Late nineteenth-early twentieth century" wing is followed by a social dinner organized exclusively for the first time in the "Another time, another space-1926-2000" wing.*

*2016 is the year of the Jubilee Extraordinary Pope Francis inaugurated on December 8, 2015. The Auditorium della Conciliazione, tucked between Castel Sant'Angelo and Piazza San Pietro, is the perfect location to live out the charm and participate.*

**Enjoy the Congress!**
