Dear friend and participant,

It is a great pleasure to welcome you to the 2016 International SIDO Congress which will focus on patient-important outcomes.

"I" is the letter for "Patient-important Outcomes in Orthodontics": ***'Interactivity', 'International', 'Innovation', 'Inspiration'.***

"Interactivity"

Learning will be 'interactive', because participants can test their orthodontic expertise at the beginning of the meeting, select pertinent courses that address their knowledge gaps, and test their uptake of this knowledge at the end. Suggestions for courses that address similar clinical or research topics are listed online from March 15th 2016.

Early birds with FADs packages will receive dedicated tutoring and will leave the congress with 50 CME.

"International"

The meeting will be 'international', because speakers from all over the world will present their clinical experience and research findings. Eminent orthodontic speakers will share their long term findings and ideas on the future of orthodontics.

We also offer a wide variety of pre-congress courses, which are promoted by the ***SIDO*** *and sponsored by the Tweed Foundation, University of Connecticut, University of Aarhus and Boston University.*

AIOP, FEO, ORTEC, SIBOS and SITeBi are special partners and enrich the international flair.

"Innovation"

'Innovation' will also be a central theme. This meeting will address (1) the latest developments on modern digital diagnostics and digital tools (2) facts about acceleration of tooth movement and biomaterials (3) dealing with Open bites and special tooth movements and solutions and (4) the latest in lingual appliances and aligners.

AIOP has helped creating a very practical session on what is really important in ortho-pros cases.

"Inspiration"

Creating evidence-based knowledge on 'patient important outcomes' will be the key scientific objective.

Florence is always an inspiration and a historic backdrop to the congress in even years.

Time to begin - Join us on Thursday afternoon for a laid-back opening get-together with complimentary wine tasting at the Fortezza da Basso's Caves and Bastions.

Time to explore - Florence on Friday evening at the Galleria degli Uffizi: exclusively for ***SIDO*** *the exquisite art and Botticelli's Primavera in the company of friends.*

Be proud of being part of SIDO in 2016.

Enjoy the Congress!
